About Us

The Veltrix Conveyor System Company is a dependable manufacturer and supplier of reliable industrial conveyor system. Our company is known for providing high-quality solutions to all types of material handling challenges in various industries. With our conveyor system design and engineering capabilities, we offer efficient conveyor system solutions that enhance the efficiency of your operations and minimize manual labor efforts. Our team is dedicated to ensuring customer satisfaction by providing excellent engineering and craftsmanship in conveyor system solutions based on the needs of our clients.

Our Mission

To provide innovative, robust, and highly performing conveyors that ensure efficient material handling in any business process. We commit ourselves to offering tailor-made engineering services, exceptional product quality, and reliable service that result in increased productivity and operational efficiency.

Our Vision

To be one of the best conveyor systems manufacturers in India through innovation, engineering and customer satisfaction. We aim at enabling industries with intelligent, efficient and sustainable solutions for material handling and establishing long-term relationships through quality and integrity.

OUR PRODUCT RANGE

Engineered for efficiency. Built for performance.
Our comprehensive range of conveyor solutions
is designed to meet diverse industrial needs.

I-Beam Conveyor

Four Wheel Conveyor

Enclosed Track Conveyor

Garments Conveyor

Roller Conveyor

Overhead Conveyor

Flat Belt Conveyor

Floor Conveyor

Material Handling Conveyor

HIGH QUALITY & DURABLE

CUSTOM BUILT SOLUTIONS

SAFE & RELIABLE

AFTER SALES SUPPORT

I-Beam Overhead Conveyor

Key Feature

Smooth & Quiet Operation

High Load Capacity

Space Saving Design

Low Maintenance

Customizable Layouts

Durable & Reliable

Parameter	Specification
Track Heights Available	4", 5", 6"
Conveyor Type	Open I-Beam Overhead Conveyor
Construction	Heavy-Duty Industrial Design
System Design	Open track design with exposed components for easy inspection and maintenance
Trolley Type	2-Wheel Trolley
Track Size	100 mm, 125 mm, 150 mm I-Beam
Take-Up Unit	Screw Type or Weight Type
Lubrication System	Air Mist Lubrication
Application	Heavy Material Handling
Maintenance	Easy access to all components

Four Wheel Overhead Conveyor

Four Wheel Overhead Conveyor is an efficient and reliable material handling solution designed for smooth, stable and continuous movement of loads. It is widely used in industries for powder coating, assembly lines and surface treatment applications.

Technical Specification

Key Feature

Chain :	Standard pitch 9 inch (also available in 6", 9", 10", 12")	Four Wheel Trolley Design for Superior Stability
Load pitch :	Multiplies of chain pitch by 2	Heavy Duty Load Handling
Load capacity :	40 kg to 60 kg	Low Maintenance
Radius :	1000mm, 1200mm, 1500mm, 2000mm	Long Service Life
Drive :	sprocket type or caterpillar type	High Precision Chain Drive
Take up unit :	Gravity type	Suitable for Powder Coating Plants
Speed :	0 – 5 meter/ min	Easy Installation & Maintenance

APPLICATIONS

**AUTOMOTIVE
INDUSTRY**

**ENGINEERING
WORKS**

**MANUFACTURING
UNITS**

**POWDER COATING &
PAINT SHOPS**

**WAREHOUSING &
LOGISTICS**

**AGRICULTURE
EQUIPMENT**

Quality Assurance

We follow stringent quality control processes at every stage of manufacturing to ensure durability, safety and performance.

Premium Quality Materials

We use high-grade raw materials to ensure strength and longevity.

Advance Manufacturing

State-of-the-art machines and technology for precision engineering.

100% Quality Inspection

Every component is thoroughly inspected to meet strict quality standards.

Performance Tested

Rigorous testing ensures optimal performance and reliability in real conditions.

Safe & Reliable Operation

Designed for safe operation with maximum efficiency and minimum downtime.

Complies With Industry Standards

All our systems comply with national and international quality standards.

LET'S BUILD BETTER TOGETHER

Partner with Veltrix Conveyor System
for reliable, efficient and future-ready
material handling solutions.
